[REDACTED] will visit this country at the request of OSI. [REDACTED] wishes to discuss Soviet engineering and automatic techniques. In addition to visiting the Agency, [REDACTED] will also attend an automation conference and visit several industrial installations. OSI's proposed program for his visit is as follows: 25X1C8c

17-20 September - Instrument Automation Conference
New York, N. Y.

21 September - [REDACTED] Associates
[REDACTED], New Hampshire 25X1C

22-23 September - weekend (on his own)

24 September - [REDACTED] 25X1C

25 September - [REDACTED]

26 September - Washington, D. C. (1/2 day)

OSI (1/2 day)

27 September - [REDACTED] 25X1C
Alexandria, Va. (1/2 day)

ORR (1/2 day)

28 September - ORR

29 September - OSI 25X1A6a 25X1C8c

OSI has cabled this tentative schedule to [REDACTED] for [REDACTED] approval. When this approval is received, OSI will work through the appropriate OO/C field offices to arrange the visits.

OSI thought ORR might benefit by selecting someone to accompany [REDACTED] on these plant visits. OSI, however, will not send anyone. The ORR analyst will not attend the automation conference, but will accompany [REDACTED] only on the plant visits on the following days: 21 September, 24-27 September.
